

TEXAS Motive Solutions:

Texas Motive Solutions is the exclusive provider of Hawker Powersource motive battery sales and service solutions to forklift dealers in Dallas, Fort Worth, Houston, San Antonio and surrounding communities. Evin Sisemore, a veteran of the battery industry, and her husband, attorney Justin Sisemore, founded the company in 2018.

From the outset, the Sisemores envisioned the company's foundation cemented in both quality and service. Along with representing the best motive product line in the industry—Hawker Powersource—Texas Motive Solutions set the bar high, promising to provide unmatched sales, service and technical support for forklift dealers in the Texas market.

To deliver on that promise, Texas Motive Solutions hired the best sales, operations and service professionals in the industry. If you're a veteran of this industry, you'll find many familiar faces on our team—some with as many as 30 years of experience in the material handling and forklift battery world.

At Texas Motive Solutions, we believe people choose to work with people, not companies—and they choose to work with people they trust. Our customers trust our people will be there when they need us. They also trust we'll deliver the quality products, service and solutions that keep their warehouses and forklift fleets running day and night.

Recognizing that prompt and efficient service was lacking in the motive battery sales and solutions niche, Texas Motive Solutions set out to be different from day one. As our company grows and evolves, we continue to invest in hiring and training service-minded technicians, so our customers get the technical support they need a.s.a.p.

While Texas Motive Solutions aims to provide the very best service for our customers—something we work at every day—faith and integrity remain the heart and soul of our business. Service comes third only to Christ and Family, because without him we can do nothing.

To our loyal clients: Thank you for trusting us to be there when you need us. Serving you continues to be both a blessing and an honor.
